## About Elish Education Services Admission Service Proposal for Students

# About Elish Education

*.....From Counseling to a Career path.... With you.... Always.”*

- Elish Education is a premier IT Consulting firm which provides one stop solutions for all Students and Educational Service provider needs.
- From Counseling till helping you settle down in a career path, we stay with you for all your educational and career related needs.
- Make Better Decisions Using Big Data and Analytics.
- Better Information, Valuable Insights and Predictions.
- Informed decisions.
- We are India and USA based IT company founded by Silicon Valley geniuses who use top of the IT Analytical and SaaS (Software as Service) technologies to help predict and take informed decisions in daily life.

# Decide

.....*Keep it simple.*

- A good start with a great plan makes all the difference.
- "Careers are for people who wish to advance. I only want to survive, draw a paycheck. "
- "Every job from the heart is, ultimately, of equal value.  
The nurse injects the syringe; the writer slides the pen; the farmer plows the dirt;  
the comedian draws the laughter.  
Monetary income is the perfect deceiver of a man's true worth.
- "I've learned that making a 'living' is not the same thing as 'making a life'."
- "In the early days all I hoped was to make a living out of what I did best.  
But, since there's no real market for dreams I had to fall back on my bass playing  
abilities."

# What

.....*Keep it simple.*

- You may have a very valid reason for what and where you think, you could be very successful.  
But Most of the students easily get deceived to something by obsession without a good reason.
- Most of “I want to be an Engineer or Medical...” students forget that There are more than a dozen Engineer, Medical Types and each Type comes 25+ subtypes within 8+ grueling semesters or full years of thorough subject matter which could be very overwhelming like you are thrown in an ocean all of sudden with nothing to hold on to.
- You may want to re-think and evaluate “Your’s” as well as “Subject’s” chances of success *“5 years from now”*.
- What technology or area of expertise seems hot now, may not be such a worth in long run.
- Stay away from Herd, that’s the only quality which makes you “Human”.
- Choose what’s best for you and your career, not what’s hot or in demand.

# Counsel

.....*We start with a basic question, what do you want to do?*

- No worries, if you don't know the answer, because anyway after listening to you, we start with your life history, gather all your academic credentials, your interests and hobbies, your background and your future plan including your be and to-be financials and emotional obligations.
- We are founded and collaborated by leading IT and Educational Service Providers who stay on top of Technologies and business market in various areas. (please check [www.elishconsulting.com](http://www.elishconsulting.com)) for our clients list, We partner with various Top Education providers across state and we are also leading Consulting service providers in domains such as, IT, Legal, Medical, Educational etc.
- Now, we may ask you to take a simple test to confirm our understanding about you.
- and since, we know market and technology so well, Then after, We simply judge your answers on a grueling set of parameters.
- Finally, Here it is..... This is what you should be doing and This is where you should be doing it. ....And We call it an "Informed Decision".

*"You needed this years ago. "Up to this point, you've been just guessing."*

## Please join us

*.....just bring yourself .....*

- Our process is very simple.
